HOW TO DO IT

Have the player choose a number, e.g. age. Show the player the Magic Cards one by one and have him say 'yes' if the number he chose is on the card.

After you've shown the player all the cards, you can tell his chosen number right away.

Secret: Take note of the number on the upper left corner of each card. As he says 'yes', add up those secret numbers. The sum is his chosen number.
